SKILLS

- Programming Languages: Java, Python, C, C++
- Web Technologies: HTML5, CSS3, JavaScript, Bootstrap
- Database: MySQL, SQL, NoSQL
- Core Concepts: OOP, Data Structures & Algorithms, DBMS
- Tools & Platforms: GitHub, VS Code, Arduino IDE
- Embedded Systems: ESP32, RTOS, Sensors & Interfacing

LANGUAGES

- English (Fluent)
- Marathi (Fluent)
- Hindi (Intermediate)
- Korean (Basic)
- French (Basic)

DATE OF BIRTH: 12 June 2005

PROFILE

B.Tech ENTIC student with strong programming fundamentals in Java, SQL, Python, and web technologies. Skilled in problem-solving, debugging, and developing structured applications with knowledge of databases, frontend development, and embedded systems. Passionate about software development, full-stack technologies, and building scalable real-world solutions.

WORK EXPERIENCE

Java Programming Virtual Internship MAY 2025 - JUNE 2025

- Strengthened problem-solving skills using Java and core programming concepts
- Applied structured logic and debugging skills, relevant for technical analysis tasks

Writer & Author

Ongoing

- Developed strong communication and documentation skills
- Created structured content and engaged audiences effectively

Art Circle Team

- Coordinated events and managed execution with cross-functional teams
- Demonstrated teamwork and organizational skills

ISR Volunteer - PCCoE

- Actively participated in Institute Social Responsibility (ISR) initiatives.
- Conducted activities to raise funds and donated the collected amount to a blind school.

PROJECTS

HARWI - Full Stack Multi-Agent Mental Health Companion

- Developed a full-stack AI chatbot using Next.js, FastAPI, Python, and multi-agent architecture for real-time conversational support.
- Built responsive frontend interfaces and integrated WebSockets for seamless real-time communication.
- Implemented multi-agent workflows using CrewAI with Redis, Gemini API, and Hugging Face models for context-aware responses and sentiment analysis.

Tech Stack: Next.js, React, Python, FastAPI, WebSockets, Redis, CrewAI, Gemini API

E-Waste Toxicity Prediction

- Developed a real-time e-waste toxicity monitoring system using ESP32 and RTOS for sensor-based environmental analysis.
- Implemented sensor interfacing and real-time data processing for toxicity detection and monitoring.
- Improved analytical and debugging skills through hardware-software integration.

Flappy Bird Game Clone

- Developed a 2D arcade game using Python and Pygame with collision detection, score tracking, and real-time event handling.
- Implemented game physics, obstacle generation, and interactive UI elements to improve gameplay experience.

Tech Stack: Python, Pygame

○ InterviewIQ - AI-Powered Interview Preparation Platform

- Built a mock interview platform enabling users to practice technical interviews with AI-generated questions and feedback.
- Developed interactive interview sessions with real-time response evaluation and performance tracking.
- Designed responsive dashboards and integrated modern frontend architecture for an engaging user experience.

Tech Stack: Next.js, TypeScript, Tailwind CSS, AI APIs, Vercel

GitHub: github.com/harshali-nikumbh/interviewIQ

Live: interview-iq-nine-xi.vercel.app

○ Learning Dashboard - Course Progress Tracking System

- Developed a responsive learning dashboard with real-time course progress visualization and activity tracking.
- Integrated Supabase database for dynamic course management and data retrieval.
- Implemented smooth animations, reusable components, and modern UI using Tailwind CSS and Framer Motion.

Tech Stack: Next.js, TypeScript, Supabase, Tailwind CSS, Framer Motion

GitHub: github.com/harshali-nikumbh/learning-dashboard

Live: learning-dashboard-ruddy-eta.vercel.app

○ Amazon Clone - E-Commerce Web Application

- Developed a responsive e-commerce platform inspired by Amazon with product browsing and shopping features.
- Implemented dynamic product rendering, cart functionality, and responsive layouts.
- Focused on frontend performance, component reusability, and user experience.

Tech Stack: HTML, CSS, JavaScript, Bootstrap

● EDUCATION

SSC H. R. PATEL SECONDARY SCHOOL, SHIRPUR PERCENTAGE: 97.40%	2011-2021
HSC H. R. P. MAIN BUILDING, SHIRPUR PERCENTAGE: 87.50%	2021 - 2023
B.Tech - Electronics & Telecommunication Engineering Pimpri Chinchwad College of Engineering SGPA: 8.45 CGPA: 8	2023 - 2027
